Let's celebrate together the International Women in Mathematics Day!

## *Movie screening*

We will be screening the movie "Secrets of the Surface: The Mathematical Vision of Maryam Mirzakhani".

## *Speed networking*

After the movie screening, join us for several rounds of speed networking. This is a great chance to connect and discuss your mathematical journey, as well as the role and impact of women in mathematics with fellow attendees in a dynamic setting.

Everyone is welcome! This event is free of charge and no registration is needed. Snacks and drinks are on us :)

Organized by:

Diana Carbajal, Anastasia Molchanova and Chiara Rigoni
